Ceramics: Hand Building Techniques and Introduction to Wheel Throwing

Students will learn basic hand building techniques of pinch, slab, and coil, and basic wheel throwing techniques. Projects may include: teapots, sgraffito plates, Pop Art sculptures, and pottery. Only five students can use the wheels at one time, so students will alternate between wheel and hand buildings. Students will have to arrange for pick-up of their fired work. **\$155 supplies included.**

August 7 - 10 (9 AM-12 PM)

Drawing 101

This offering, for artists of all levels, will include the basics of sketching and shading and other drawing techniques. Projects will range from a still life to a self-portrait. Bring your enthusiasm and creativity and the teacher will guide the way. **\$135 supplies included.**

July 31 - August 3 (1 PM-4 PM)

Watercolor Painting

Come have fun this summer learning the basics of watercolors! Students will learn classic techniques as well as some Chinese brush painting. Students will practice using wet on wet, dry brushing, washes and other techniques of paint application. **\$160 supplies included.**

August 7 - 10 (9 AM-12 PM)

Drama and Acting

This workshop provides young actors with a foundation for basic acting skills while building confidence and creativity through the world of live theater. Students will have the opportunity to practice and perform scenes during the course. **\$140 supplies included.**

July 31 - August 3 (9 AM-12 PM)

Model Rockets & CO₂ Cars - An Applied Technology Workshop

Participants will explore technology through hands on e-designing and fabricating model rockets and CO₂ cars. Students will enjoy learning the basics of rocket and model building in a safe environment. Participants will be instructed in the proper/safe methods of using all the tools and equipment needed. **\$165 supplies included.**

August 7 - 10 (1 PM-4 PM)

Photography: Unique Processes and Dark Room Experimentation

Students will learn a variety of unique photographic techniques including Pinhole Photography, Photograms, and Black and White Darkroom Printing. Students will use 35 mm film cameras to take abstract photographs which will be used in their unique projects. This will allow for dark room experimentation. **\$160 supplies included.**

July 31 - August 3 (9 AM-12 PM)

Digital Photography Workshop

Students will learn the basics of digital photography. Elements of this course include: learning what your camera can do, photo composition, using Photoshop, and when and how to use professional lighting. This class is designed to give amateurs confidence in knowing how to use their cameras. **\$175 supplies included but students should supply a DSLR camera.** (A limited number of cameras will be available for in-class use only.)

August 7 - 10 (1 PM-4 PM)

Animation for Beginners

Want to create an animated film? Students who complete this course will learn the photographic techniques needed for stop action animation using the digital process. Students will focus on: camera modes, composition, exposure, and editing using Photoshop. The basics of script writing and storyboarding will be included. Cameras, software, and lighting will be provided. Students must supply their own flash drive in order to save their creation for viewing with friends and families. **\$160 supplies included.**

August 7 - 10 (9 AM-12 PM)

Design in 3D

Interested in Architecture and Design? Experience 3D modeling software SketchUp 2015, the program used by professional architects, designers, and engineers. In this class students will learn how to turn basic shapes into a full room design. Adding furniture, finishes, and lighting will complete your room plan! Students will leave with a beautiful color print of their work. **\$155 supplies included.**

Fun with Graphic Design and Photoshop

Participants will learn the basic tools of graphic design using Photoshop software. Lessons will incorporate the users' individual interests in producing their project/s. Students can choose project themes such as music, entertainment, or sports. Design techniques will be introduced so that participants can create a t-shirt design, a CD or DVD cover. **\$160 supplies included.**

**July 31 - August 3 (9 AM-12 PM) or
August 7-10 (9 AM-12 PM)**

Basic Knitting - Part 1

This class will introduce you to the wonderful world of knitting. Students will learn how to "cast on" using circular needles, the knit and purl stitches, and how to finish a project. Students will create items such as: a bookmark, a scarf, a belt, a purse, or a bean bag. Some simple sewing will also be taught to help complete each project. **\$150 supplies included.**

July 31 - August 3 (1 PM-4 PM)

Basic Knitting - Part 2

Students will review the knit and purl stitches as well as learn to read a pattern. We will have fun creating different hats! Some simple sewing will also be taught to help complete each project. **\$150 supplies included.**

August 7 - 10 (1 PM-4 PM)

Basic Chess I

The road to learning (or even just playing for fun) begins with the basics. In this course, students will learn how the pieces move, the rules and principles of the game, as well as tactics and strategies. Students will have ample time to play, and their games will be incorporated into lessons to make learning immediately relevant. The instructor will be able to help each player to improve, regardless of his/her current ability. **\$135.**

July 31 - August 3 (1 PM-4 PM)

Basic Chess II

In this course, after a quick review of how the pieces move, students will learn tactics and strategies for all three phases of the game: the opening, middle game, and end game. Students will have plenty of time to play, and their games will be incorporated into lessons to make learning immediately relevant. Just as in Chess Basics I, the instructor will be able to help each player improve, regardless of his/her current ability. **\$135.**
